Roblox is an incredible game that gives people the opportunity to play in a virtual world that has so many different games, and it's also completely free. In Roblox there are many different categories of games you can play, for example you can create your own game, and the possibilities are almost endless. The first thing I was really interested in when I started playing Roblox was creating my own avatar which was really fun because you have a lot of options to choose from. You can pick from what hairstyle you want to wear or even what kind of clothes you want to wear. You can also pick how big or small you want your avatar to be, how they look in the mirror and of course what color the hair is. You can even choose if you want them to wear glasses or not.

ROBLOX started to develop more games in 2021, including: "Boom Boom Speedway", "Pirate Invasion", and a brand new version of "Dance Off". On February 6, 2021, ROBLOX launched a new game named 'Gladiators'. This game was one of the first games where being shot by another player would cause damage towards your avatar. It also included characters that could attack back.

For example, Jailbreak offers a premium feature which allows players to purchase more life points. As the game is free, there is no way for them to gain XP in the traditional sense. Instead of implementing XP via cash or coin drop-rates (as would be done in a game that relies on premium features), they offer more life points as a way to make it easier for players if they choose to purchase them. Free games also don't have an option of offering premium features that modify their economies or XP systems. Therefore, they usually offer only the default system as an option for non-Premium members.

As of 2021, ROBLOX does not require end-users to use their own search engine to find games.[18] This is bad as some users search for objects such as skins and items instead of games. This can lead to confusion because they may get a game search that directs them to user's profiles instead.

11. There is a rule that allows inappropriate activity on Roblox to get banned. 12. There are too many glitches within the game such as the bug where the game does not close when you come out of a video, and it doesn't force you to close but it just stays on the screen, and even though you are out of the game, your character is still doing stuff such as talking about other people's friends and such. 13. Roblox needs to have a platform for developers where they can submit their games without them being judged or having any problems with inappropriate content getting banned along with their account and everything else that goes on within this platform.

You can unlock new gear for your character by completing different adventures or collecting coins from different obstacles in-game. The more you explore and play, the more prizes you get!
