I love Roblox, but there are a few issues that I think need to be fixed. I have noticed that there is a lot of adult themes, and people swear a lot (which is not acceptable, it should only be in forums, not in game). It also needs more updates. In my opinion you should only take down the website if you combat online harassment or if someone steals someone else's idea. You can't create an account with your email address or password because the website doesn't know who you are. It only knows your username which is so unfair because someone could send harassing messages to other players without them knowing the real person. You should add more games and less glitches, with more updates. I really hope you take my suggestions into consideration, it would be great if you fixed all the big issues in Roblox.
