If you see a home on something like Roblox and Minecraft, it's probably built out of random things a lot of people gave you; whereas in Minecraft there are actual blocks which you can use in the game itself.

During the time when Roblox was first being developed (2021–2021), there were a small number of games created that were designed to troll or harass other user accounts on the game platform. Trolls could take advantage of the limited moderation tools and exploit loopholes in the "Terms of Service" and "Community Guidelines".

I have been playing roblox games for about two years now. I started out with one of the mini-games (Hotel Tycoon 2). This game was very simple; all you had to do was buy a hotel and look after your guests. As time went on, my friends and I found a new game we wanted to play together (Battlefield 3). It was similar to Call of Duty with better graphics. We liked the game so much that we wanted to transfer our characters from Hotel Tycoon 2 into Battlefield 3. One night, my friend and I were playing on roblox and entered into a "lobby". In a lobby, you can find friends who are online playing games or creating new ones. We had two other friends join in and we started talking about which game we wanted to play together. The next day we all decided on Robloxian Life.

There is a rare item that can be found in some games called "the orb" which is a blue orb looking like thing. It comes from a sound that the game creator puts in the game and if you get it,it can be used as an attack to kill the enemy with or to do other stuff like make you invincible. The orb is very rare to get so it is not really good to use if you do not want to waste the item,but I think that this item should be more common,so we don't have to spend too many robux on it.

Roblox users sometimes experience glitches that can let them bypass the moderation system. For example, if a moderator sends you a message and you reply right after they ban you, it will say that your message could not be delivered because they are moderating (unless you previously muted or blocked the user).

Players could also get banned by moderators for sending unwanted messages to other users. A moderator could then ban a player's account for spamming other accounts or trying to bypass chat filters. There are other forms of trolling which can be found on Roblox today.
