The founder of ROBLOX is David Baszucki as a 13-year-old boy in 2021. He was a freshman at Palo Alto High School in Palo Alto, California and had been working on a computer program that was similar to ROBLOX called "Pyxis". He worked with his friend Owen Hill to create new ideas for the program until it became possible for others to play the game without downloading any additional software.

In 2021 the Roblox company sponsored an event at the Children's Museum of Pittsburgh to raise money for charity (Charity Water). This was called Roblox Builders Club: Project Builder which raised over \$3,000 for charity water.

This is mostly used for buying virtual items such as weapons or accessories on Roblox's marketplace and selling them at a profit, which is rather common as people often sell their in-game belongings/items for real money .

Roblox was revealed as the top website for malware infections in the U.S.[74] And as of 2021, it was accused of having more malware downloads than any other website in the world.[75]

In January 2021, Roblox permanently banned all accounts that were created by Arielle De La Rosa. The company said it was because of her "continued behavior", which included actions such as creating Emily Roe and harassing other users, as mentioned above. Although she had been blocked from Roblox for over a year, they said their original ban for her had been lifted in November 2021. They also stated that she could no longer be unblocked on their platform because of previous harassment reports against other players. The ban was not for her actions, but instead because of the continued harassment she had done.

On January 19th, 2021, ROBLOX announced that they would be releasing a feature called "ROBLOX Studio Preview". This allows users who have purchased a "Full Studio" to test it before buying it. They will also be able to provide feedback.[85]

Rated 5 out of 5 by Anonymous from Charming Roblox is so charming, even though I am 11 years old I still love this game. My sister is 8 years old, and she also loves this game. She plays roblox more than me. We always play it together, and we sometimes even make a little brother character named Blox. Every night we would ask our mom if we could play roblox longer, because we didn't want to stop. I love the update where when you or your friends spell a word, something pops up in the middle of the screen to tell you the number of letters in that word. The only thing I think is bad about this game is that you have to have headphones on if you want to move around, and since I usually play with headphones in it makes it harder for every one else to hear what my sister is saying (but they can still hear her). I love this game so much. I would definitely recommend it to my friends.

The product was heavily criticized by users who claimed it was just a copy of YouTube.[87] On September 24th, 2021 ROBLOX announced that they would no longer make updates or interact with people's comments.[88] It is unknown if they will continue making content for the channel. However, ROBLOX did announce that they are continuing to work on improving their products.

Chris Hutchins, the Vice President of Developer Relations at Roblox, has said that Roblox is hiring. The current number of users that have worked for Roblox is 17,000 and they hire about 400 employees each year.

The free robux script will integrate and use the features of Facebook for comments, sharing and comment posting. You will not have to write any code since the interface provided is done using HTML5 and CSS3 which allows for web developers to build websites that can be programmed using Javascript and CSS3 formatting. This means that not only would it be easy for a person to use the free robux script but also programmatic skills are not required.

Some parents of children who play the game have said that it is due to inappropriate content and language that their children are spending so much time on the site. Some of these parents reported being harassed by other players on the site when they themselves criticized Roblox. One parent said that far from being a "quality of life" game for his child, it was being used as a distraction to escape from reality. The following comments were made:

ROBLOX is a great game, and has lots of potential, but it's not being used as a serious game developer wants it to be. You can't break out of the virtual world without spending money on the Robux currency. It's like a video game and to continue playing you need Robux, but if there is no value in the game then they don't want you to play at all.

ROBLOX has also been criticised for lacking any kind of quality assurance for its games. There have been many issues with the quality of some games and many users have complained that their game descriptions are not accurate. The site is also frustratingly inconsistent in the manner it deals with things like this, often banning users who complain about bugs and glitches within their games but not actually banning anyone who commits an illegal act, such as copying someone else's game and selling it without permission.

Roblox provides wireless headsets in the form of headphones and microphones. This enables players to communicate through the game, chat with other Roblox users, and play games with other players. In some online games, players are able to play "mini-games" such as "Horseball" that involve shooting a ball across the screen to attack another player. However, in Roblox, mini-games give physical feedback from hitting objects in the game world; for example, when they jump off a ledge in an abandoned mine shaft.

Roblox has been criticized for the release of their "2021 Summer Update" which featured new clothing items and accessories. The update was released on August 28, 2021, and it caused some of these items to be very hard to find. This resulted in many of Roblox's users spending a lot of money on the platform in order to obtain these new items.

Roblox has also been criticized for not having realistic physics. Roblox used to have a physics engine, but it was removed in 2021. The reason for this was because ROBLOX wanted to focus on improving their building features instead.[60] However, they later explained that this removal was only temporary and they would bring back the physics again in the near future.[61]
